I know you are busy enough, but I caught something on the distributor label: EPA Reg #8536-29-87994. Please read emails below.

Just wanted to keep you in the loop. Also the label has excellent storage and disposal requirements.

Wasn't sure if you were aware of it, but Please see under directions for use on page 4 second large paragraph:

This is a limited use label for quarantine/regulatory purposes and is to be used by or under the supervision of a State or Federal agency.

Here is the distributor label for 8536-29-87994:

http://www.kellysolutions.com/erenewals/documentsubmit/KellyData%5CSC%5Cpesticide%5CSupplemental%29-87994%5C8536-29-87994_METHYL_BROMIDE_QUARANTINE_FUMIGANT_3_4_2014_10_56_33_AM.pdf

I couldn't shuffle through all my emails to find an earlier version.

Subject: FW: Some questions for the 1:00 pm call with the EPA re: Methyl Bromide

Hi Dawn & Magdalene, I just received the following 2 additional questions for the call. Thanks!
Linda

1. Did DPNR take a photo of the label on the methyl bromide cylinder in Terminix's St. Thomas location (Meth-O Gas, EPA Reg. 5785-41) and its St. Croix location (Methyl Bromide Quarantine Fumigant, EPA Reg. No. 8536-29-87994) and if so, can EPA please get a copy? Likewise, to the extent DPNR has taken any other photos at Terminix's facilities -- whether of the cylinders, any personal protective equipment, placards, the storage area, etc. -- can EPA please get a copy of the photos?

2. Has DPNR found if any methyl bromide applications in the VI by Terminix, Oliver Exterminating or anyone else were supervised by USDA or any other government agent? (The application of "Q" methyl bromide pesticides is supposed to be supervised by a government agent.)

Hi Dawn,

It was good talking with you this morning. Following is the draft list of questions I spoke of for today's 1:00 call.

I look forward to talking with you about the VIDPNR's pesticide program after the Easter holiday. Thank you for suggesting it.

Feel free to contact me at any time. My contact info is below. Thank you.

Linda

1. Has DPNR gotten any documents or other response yet from Terminix to the two Stop-Use Orders? If DPNR did receive documents from Terminix, can EPA get a copy? (Or, if the docs. are voluminous, can EPA come to DPNR's office and make a copy?)

2. Has DPNR interviewed Jose Rivera (or any other Terminix employee) about the methyl bromide use and if so, does DPNR have an interview summary they can share with us?

Nonresponsive
